

# The Henkelman Boxer 52

For a variety  
of packaging  
needs

## Versatile vacuum packing machine

The Henkelman Boxer 52 is a versatile vacuum packing machine with a professional appearance for packing products of various shapes and sizes.

The powerful pump ensures a fast vacuuming cycle.

Equipped with 10 (adjustable) programs and soft air as standard.

Extracting air, adding value

# Compile your ideal Boxer 52

The Boxer can be fitted with all kinds of optional extras. This means that each machine can be put together to suit your specific needs. Some options can even be added after the machine has been installed. The extra options enable you to control and/or package certain types of products even better.
